

Duration: 2 Days including Examination

Course Cost: £345.00p

Entry Requirements: See details below

It is expected that candidates should have achieved a qualification which addresses the requirements for BS 7671 such as the City & Guilds Certificate in the Requirements for Electrical Installations BS 7671: June 2001 (2381) or equivalent in order to satisfactorily complete this qualification. Without evidence of formal qualifications, candidates must be able to demonstrate adequate prior knowledge of BS 7671 to ensure they have the potential to successfully gain the update qualification. Anyone that has not achieved the City & Guilds in the requirements for electrical installations (BS 7671:2001) (2381) or does not have a good working knowledge of the requirements of BS 7671 or recognized equivalent should consider taking the qualification addressing the Wiring Regulations in full – the Certificate in the Requirements for Electrical Installations to BS 7671:2008 (2382-10)

East Midlands Technical Training Ltd & Burleigh Community College offer a range of quality Training Courses to raise the standard of good electrical installation practice. All of these courses carry City & Guilds or NICEIC Certification.

All of our Lecturers are Engineers who have many years of relevant experience in the Electrical Contracting Industry.

We are centrally located in Loughborough –
2 miles from junction 23 off the M1

In-Company Courses available on request.

City & Guilds

WIRING REGULATIONS COURSES (BS7671: 2008) 17th Edition

The seventeenth (17th) edition of the IEE Wiring Regulations, BS 7671:2008 Requirements for Electrical Installation is due to be published during January 2008 and is scheduled to come into effect from July 2008.

City and Guilds are in the process of developing new qualifications that will take changes to the current 17th edition wiring regulations into account. The new City and Guilds qualifications are due to be launched in September. It is our intention to update all our course material to reflect the seventeenth edition wiring regulations and provide candidates with a definite advantage when sitting the new 17th edition examination.

The new City and Guilds 17th edition exams are expected to be available towards the end of February 2008 and we are expecting a massive demand for our courses.

Certificate in the Requirements for Electrical Installations
(BS7671:2008)

City & Guilds 2382-10

(FULL QUALIFICATION)

The aim of this unit is to enable the candidate to demonstrate that they are conversant with the IEE Wiring Regulations BS 7671:2008.

Objective:

This qualification is primarily aimed at practicing electricians with relevant experience and other allied professionals e.g. electrical engineers, contracts managers, designers, consultants, surveyors, and other related trades needing to update and enhance their understanding of IEE Wiring Regulations. It may also be suitable for anyone requiring an understanding of BS 7671, although prior knowledge in basic electrical science will be required. It is intended to ensure that on completion individuals are conversant with the format, content and the application of the Requirements for Electrical Installations BS 7671: 2008 (17th edition).

Approach to the Course and Assessment:

This unit will be assessed by a multiple choice online test covering the underpinning knowledge relating to the content and application of BS 7671

Course Content:

There are eight units making up the course relating to Parts 1-7 and the Appendices of BS 7671:2008

- Scope, object and fundamental principles
- Definitions
- Assessment of general characteristics
- Protection for safety
- Selection and erection of equipment
- Inspection and testing
- Special installations or locations
- Appendices

Duration: 4 Days (including Examination) **Course Cost** £615

Entry Requirements: There are no formal entry requirements

Certificate in the Requirements for Electrical Installations

UPDATE

(BS7671: January 2008)

City & Guilds 2382-20

The aim of this course is to provide delegates with an awareness of the main alterations and additions incorporated in BS 7671:2008.

Objective:

This course aims to **update delegates** on the significant differences between the 16th and 17th editions. It will, therefore, focus on the main additions and alterations that have been incorporated in the 2008 (17th) edition. It is primarily aimed at practicing electricians and other allied professionals e.g. electrical engineers, contracts managers, designers, consultants, surveyors, and other related trades with a good working knowledge of BS 7671 and who have already achieved the City & Guilds Certificate in the requirements for electrical installations (BS 7671: 2001) (2381) or recognized equivalent. It is intended to ensure that they are conversant with the format, content and the application of the current edition of the Requirements for Electrical Installations BS 7671: 2008 (17th edition).

Approach to the Course and Assessment:

This unit will be assessed by a multiple choice online test covering the underpinning knowledge relating to the content and application of BS 7671
